

## Software Modules Applicable to Range Rover P38

Here is a list of all our modules that are applicable to the above vehicle. Some will always be fitted (Mandatory), some are fitted according to model, year, engine type (Alternative) and some are optional (Optional) according to model or customer selection. Finally some will be specialist (Specialist) use only.  
 Presence of the main control unit signifying the fitting of any given vehicle system in any particular vehicle should be confirmed visually against the photograph supplied within the more information pages for each system or by running our Vehicle Scan module to diagnostically detect it.  
 Click on the links below each System Name for expanded information.
